Education

SRM Institute Of Science And Technology Chennai

Bachelor of Technology in Computer Science *May 2018 – May 2022*

- CGPA : 8.76
- Courses : Object Oriented Programming And Design, Data Structures, Algorithms, Database Management Systems, Computer Networks, Operating Systems
- Extracurriculars : Android Development Lead in Microsoft Learn Student Ambassador Club, Professional Development for Co-op(mentorship, provided project reviews, interview prep)

Experience

Software Engineer July 2023 – Present

Target Corporation

- Tech Stack: Java, Spring Boot, JUnit, Kafka, Cassandra, Neo4j, Redis, Grafana, Kibana
- Designed and implemented a graph-based retail fraud detection service by leading vendor evaluation, architecture, api design and stakeholder alignment, uncovering multiple million-dollar fraud rings while reducing investigation time by 50%.
- Engineered a streaming solution for downloading 1GB+ CSV files directly from the database, reducing download time by 66%, bandwidth usage by 50%, and eliminating download failures.
- Optimized cloud infrastructure for 30+ microservices, reducing annual infrastructure costs by over $250K through performance tuning and resource optimization.

Associate Software Engineer July 2022 – May 2023

Dentsu World Services

- Tech Stack: Java, Spring Boot, Hibernate, PostgreSQL, React.js, HTML/CSS
- Integrated 3D product configurator in client's e-commerce platform, leading a 12% increase in conversion rate.
- Implemented dynamic store locator feature with location-based search to improve customer experience.

Software Engineer Intern June 2021 – August 2021

MakeMyTrip

- Tech Stack: Python, Django, Android SDK, MySQL
- Developed REST APIs to deliver train journey-related news using automated web scraping.
- Designed and prototyped a location detection system for users traveling under poor network conditions using cell tower triangulation.

Technical Skills

Languages: Java, Kotlin, Python, JavaScript, SQL

Databases: Cassandra, MySQL, Redis, Neo4j

Frameworks/Libraries: Spring Boot, WebFlux, JPA, Hibernate, JUnit, Mockito, JDBC, Java EE, Servlets, React.js

AI: Agentic AI, Model Context Protocol (MCP), GitHub Copilot, Claude, Spec-Driven Development

Others: Microservices, Kafka, Kibana, Grafana, Splunk, Hadoop, Docker, CI/CD, Rest API, Gradle, Maven, IntelliJ IDEA, Agile, Test-Driven Development (TDD)

Personal Projects

Multiplayer Online Ludo Game

- Tech Stack: Java, Spring Boot, Redis, Pub/Sub, MySQL, Websocket, Amazon Web Services (AWS)
- Deployed and deployed real time multiplayer distributed ludo game.
- Secure login with JWT, AI game review, user profile, leaderboard, online presence indicator, matchmaking, chat, game state management etc.
